Sharing Our Pets' Love

LET US KNOW!

LET US KNOW!

LET US KNOW!

**YOU CAN HELP US WITH ONE OF OUR
MOST FRUSTRATING PROBLEMS**

In our guidelines we stress the importance of knowing if a volunteer is not able to continue his/her weekly visits. There are many reasons: your pet's health, your pet not enjoying the visits, your health, family problems, changed schedules, changed priorities, or simply you find that this is not what you wanted to do after all.

In addition to the original transmittal letter, the guidelines, and reminders in the newsletter, this subject has been mentioned during the evaluations and at the meetings. We are dealing with an average of 130 volunteers during each year, inclusive of our active volunteers and potential recruits during the year. There are also the care center staff members and veterinarians. It is difficult, but is a lot easier to function if you, as volunteers, communicate with us when experiencing problems.

Our other request is that volunteers advise us via email or phone to if they will be away for any extended time.

Please let us know.
